Metode de Auto-vindecare

- De-a lungul carierei sale, Teodor a fost implicat in recrutarea si pregatirea multor angajati veniti din toata lumea. Teodor a urmarit evolutia si transformarea produsa de programe eficiente de training si coaching.
- Cu o dorinta puternica de a ajuta oamenii, Teodor s-a decis sa se foloseasca de experienta personala de munca si viata. A creat Metoda Ki Train, un concept care foloseste artele martiale energetice, puterea ascunsa a mintii omenesti pentru a accelera autovindecarea.
- Pasiunea pentru training de o viata il face pe Teodor un trainer deosebit de charismatic, fiind capabil de a transforma un subiect banal intr-o experienta memorabila
- Teodor ne inspira sa visam fara limite, pentru ca motto-ul sau de viata si al Metodei Ki Train este: **“Orice poti sa iti imaginezi devine realitate”**

Everything you can imagine, is real!

The Mind communicates with the Body through life force energy known as Ki. All human body functions are based on Ki. Some functions are controlled by the Conscious Mind and others by the Subconscious Mind. The Ki is the driving force behind all our physiological processes, including the immune system which protects us from illness.

The Ki Train Method involves exercises with varying difficulty levels, starting from quite simple to rather complex.

The idea is to start simple, focus on one area of your life, and then slowly expand to the other areas until you are living a life that you deserve and wish for. Choose the path to health and reclaim your energy to pursue your dreams.

The physical body is the vehicle that is taking us through this journey on Earth. Use the Ki Train Method to give your body the power and energy to take you wherever you want to go.
